Our History

For so long, the industry has focused on incremental advancements in robotic equipment; innovations that bring dexterity, and precision to surgery. Combined with robotic precision, augmented intelligence goes further by giving surgeons a sense of what's around the corner. And as a surgeon builds on their legacy, our technology only gets smarter, ensuring that every surgery that follows will be, too.

Because we can do better. For patient care. For surgeon longevity. For lower cost barriers, and wider access to the latest advancements. And right now, in ORs across the world, a growing community of minds is making "better and better" the new standard of care. Our technology isn't the "next generation." It's the missing piece.

Advancing Sustainable Surgery

Sustainability is a cornerstone of our mission to redefine the future of healthcare. By prioritizing innovative designs and reusable technologies, we are creating solutions that benefit both the environment and the healthcare system.

Cost-Effective and Responsible Partner:

Asensus provides a cost-efficient alternative that aligns with global sustainability goals by maximizing equipment reuse and helping providers lower their environmental footprint.

As part of the KARL STORZ family, Asensus Surgical is committed to developing innovative technologies that not only advance surgery but also promote environmental stewardship.

Digital Surgery Leadership

KARL STORZ Integration: Expanding global impact and accelerating innovation as part of a trailblazing force in surgical technology.

Surgery Redefined: Bridging gaps in minimally invasive surgery through innovative, cost-effective solutions.

Performance-Guided Surgery™: Real-time analytics and augmented intelligence combined with robotic precision empower surgeons to reduce variability and improve patient outcomes.

Real-time surgical insights, powered by human ingenuity

Offices Based In:

- Durham, North Carolina, USA
- Lugano, Switzerland
- Milano, Italy
- Betrange, Luxembourg
- Yokneam Illit, Israel
- Tokyo, Japan
